About

Angular-focused Frontend Developer with about six months of professional experience at Andisheh Computer (May 2026 – Present). Hands-on work with Angular components and pages, services, routing, forms and validation, REST API integration, and implementing interfaces from Figma designs. Knowledge of HTML, CSS, JavaScript and TypeScript, with styling experience in Tailwind CSS and Bootstrap. Interested in building responsive, clean and maintainable interfaces. Currently learning React.

Experience

Andisheh Computer — Angular Frontend Developer

🗓 May 2026 — Present

Angular · TypeScript · REST API · RxJS · Tailwind CSS

- Develop and maintain Angular pages and components with TypeScript.
- Implement interfaces from Figma designs with responsive output.
- Integrate REST APIs with HttpClient and manage data in services and components.
- Build forms with validation and routing in real project pages.
- Use RxJS and signals in real project scenarios.
- Fix bugs, maintain code and collaborate in a team including code review.

Projects

Nobatifa — Online Vehicle-Service Booking Web App

Personal project

Angular · TypeScript · Tailwind CSS

Persian RTL web app for booking vehicle-service appointments online, built with Angular and Tailwind CSS; booking, invoice view and next-appointment reminders.
